

SUMMARY

Senior Graphic Designer and Interface Specialist with over 19 years of comprehensive experience delivering high-impact visual design, brand strategy, and digital interfaces. Proven track record across corporate, agency, and industrial sectors, specializing in end-to-end print and digital design, product packaging, and large-scale environmental signage. Expert in translating complex technical requirements into intuitive user experiences (UX/UI) for robust Building Management Systems (BMS/BAS) front-end graphics. Highly adaptable collaborator skilled at managing multi-location brand assets, driving cross-functional marketing campaigns, and delivering under strict deadlines.

EDUCATION

BS Bachelor of Science in Web Design and Development | Bellevue University 2018

AS Applied Science in Digital Arts and Graphic Design | Vatterott College 2007

Google UX Design Professional Certificate

EXPERIENCE

Sign Works Inc. | Omaha, NE - Environmental Sign Designer | *April 2025 – Present*

- Conceptualize and engineer custom architectural signage and environmental promotional materials for new construction and established regional enterprises.
- Interpret precise architectural scales and technical specifications to ensure optimal brand visibility, communication, and structural alignment across diverse physical applications.
- Manage end-to-end design layout, file preparation, and production-ready output for large-format printing and vinyl applications.

Truck Center Companies | Omaha, NE - Senior Graphic Designer (Hybrid/Freelance) | *July 2021 – Present*

- Serve as the lead graphic designer within a collaborative marketing team, managing comprehensive visual asset development for 17 transportation sales and service locations.
- Execute multi-channel creative assets including direct mail marketing campaigns, product packaging, large-scale billboards, print/newspaper advertising, and corporate business forms.
- Strategy and design for all digital and web-facing touchpoints, driving brand consistency across social media channels and digital marketing platforms.

Southern Carlson | Remote Freelance Packaging Designer | *July 2022 – April 2023*

- Spearheaded the foundational branding and visual design strategy for "Interchange PRO," a high-profile, private-label pneumatic tool line.
- Extended the brand architecture across a high-volume product line, designing and adapting compliant packaging for hundreds of unique SKUs.
- Partnered remotely with the core creative team to maintain strict technical print specifications, file output, and structural packaging layouts.

ACS, Inc. | Remote Lead Graphics Interface Designer (UX/UI) | *July 2021 – July 2022*

- Collaborated with engineering teams to design, develop, and implement intuitive BMS/BAS front-end user interfaces from initial concept to system deployment.
- Programmed visual assets within the Niagara framework, utilizing custom graphics, points lists, and dynamic data links to optimize system monitoring.
- Rendered precise 2D/3D building floor plans, equipment graphics, and HVAC schematics to maximize system usability and data visualization.

Southern Carlson | Omaha, NE Marketing Manager / Senior Graphic Designer | August 2017 – July 2021

- Led creative services initiatives supporting B2B sales staff and marketing operations across more than 140 corporate locations in the US, Canada, and Mexico.
- Managed the end-to-end production of print, digital, and promotional materials aimed at accelerating market share, driving revenue, and elevating unified brand equity.

Engineered Controls Inc. | Omaha, NE Graphic Design Technician (UX/UI & Marketing) | 2012 – 2018

- Maintained a dual-focus role, developing front-end Building Management Systems (BMS) graphics for automated building control systems while executing corporate marketing collateral.
- Engineered clear user interfaces for end-users to seamlessly monitor and troubleshoot complex commercial HVAC and automated facility systems.
- Directed the design and output of all internal and external marketing collateral across digital, web, social media, and traditional print channels.

Midlands Business Journal | Omaha, NE Graphic Designer / Page Layout Specialist | 2012 – 2018

- Orchestrated the weekly and bi-weekly production, layout, and structural pagination for two regional business publications.
- Designed custom, high-converting print advertisements for corporate clients alongside internal marketing collateral and promotional materials.
- Balanced strict, fast-turnaround publishing deadlines with meticulous attention to detail within a fast-paced, high-pressure media environment.
